

# ALA Maps Northern Tablelands North

The screenshot shows the Atlas of Living Australia web interface. The browser address bar displays `spatial.ala.org.au`. The page header includes the logo "ATLAS of LIVING AUSTRALIA" with the tagline "sharing biodiversity knowledge", and navigation links for "Home", "Dashboard", "Save session", and "Log in". A search bar is labeled "Search the Atlas".

The main content area features a map of the Gibraltar Range National Park area. The map is overlaid with a red semi-transparent polygon representing the "Gibraltar Range". The left sidebar contains a "Map options" section for the "Gibraltar Range" layer, including a "Rename" button and a "Facet" dropdown set to "User defined colour". Below this is a color palette and three sliders for "Red" (set to 255), "Green" (set to 0), and "Blue" (set to 0). A red circular color preview is visible next to the sliders. Underneath are "Quick links" for viewing reports, metadata, and downloading species lists and records for the area. At the bottom of the sidebar, a file selection dropdown shows "Species\_list\_2013062....csv".

The map itself shows the Gibraltar Range National Park in red, surrounded by other parks like Washpool National Park and Guy Fawkes River National Park. A scale bar indicates 10 km and 10 miles. Coordinates are shown as Lon: 151.70447 and Lat: -29.03000. Map data is attributed to ©2013 GBRMPA, Google.

This screenshot shows the Atlas of Living Australia web interface with the "Washpool" layer selected. The browser address bar remains `spatial.ala.org.au`. The page header and navigation elements are identical to the first screenshot.

The map now displays the Washpool National Park area highlighted in red. The left sidebar is updated to show "Map options" for the "Washpool" layer, with the same "User defined colour" facet, color palette, and sliders (Red: 255, Green: 0, Blue: 0) and red color preview. The "Quick links" and file selection dropdown ("Species\_list\_2013062....csv") are also present.

The map shows the Washpool National Park in red, with surrounding areas like Maryland National Park, Richmond Range National Park, and Mount Pikapene State Forest. The scale bar and coordinates (Lon: 151.77313, Lat: -29.40635) are visible. Map data is attributed to ©2013 GBRMPA, Google.

# ALA Maps Northern Tablelands North

The screenshot displays the ALA Maps Northern Tablelands North interface. The browser address bar shows `spatial.ala.org.au`. The page header includes the ALA logo and navigation links: Home | Dashboard | Save session | Log in. A search bar is labeled "Search the Atlas".

The main interface features a toolbar with "Add to Map", "Tools", "Import", "Export", and "Help". Below this, a "Capoompeta" layer is selected, with "Map options" visible. The "Capoompeta" layer settings include:

- Layer name: `Capoompeta` (with a "Rename" button)
- Facet: `User defined colour`
- Color selection: A grid of color swatches.
- Red: `255` (with a slider and a red circle indicator)
- Green: `0`
- Blue: `0`

Quick links are provided for the "My Area":

- [View area report for "My Area"](#)
- [View metadata for "My Area"](#)
- [Download species list for "My Area"](#)
- [Download all records for "My Area"](#)
- [Create classification for "My Area"](#)

The map shows the Northern Tablelands region with various national parks and forests, including Sundown National Park, Bald Rock National Park, Washpool National Park, Gibraltar Range National Park, and Mount Pikaipika State Forest. A red polygon is overlaid on the map, centered around Tenterfield. The map includes a scale bar (10 km / 10 mi) and coordinates: Lon: 151.91321, Lat: -29.80991. A "Species\_list\_2013062....csv" file is shown in the bottom left, and a "Show all downloads..." button is in the bottom right.
